Tax governance

Tax is part of the Finance Function of our Group and is the ultimate responsibility of our Chief Financial Officer.

Our approach to tax and tax status is reviewed regularly by our Treasury, Risk and Capital Committee chaired by our Chief Executive Officer. Tax issues are assessed on a case-by-case basis by our CFO obtaining external advice where necessary. There are clear management responsibilities, backed up by regular monitoring and review including internal audit programs.

Day to day tax matters are delegated to the Head of Financial Control and a team of in-house professionals who hold a combination of tax and accounting qualifications and experience.

Tax risk management

We manage tax risks in such a way as to ensure that key risk areas are monitored, and material risks minimised.

Diligent professional care and judgement is always employed to assess tax risks in order to arrive at well-reasoned conclusions on how tax risks should be managed. Where there is uncertainty as to the application or interpretation of tax law, appropriate advice, evidencing the facts, risks and conclusions may be taken from third party advisors to support the decision-making process.
